

JIM HARRISON

Jim Harrison is like a faithful old storyteller, full of delightful tales we're all familiar with. Harrison, who lives in his boyhood town of Denmark, South Carolina, helps others recall shared recollections of earlier times. With sparkling clarity and an uncluttered style he has a special ability to bring out the forgotten images of years past. Jim is a seasoned artist with over ninety sold our limited editions to his credit. Five books about his life and work further explain why his prints are among the most collectible throughout North America.
