Subject: Need help targeted individual

I have been a targeted individual of Remote Neural Monitoring. I know the people doing this to me. They have made burning feelings inside my stomach causing an unusual discharge afterwards. The girls name is Ellen Keish Meely, she goes by Keisha and lives in Lyman, S.C. . She has been making me here voices and keeping me from being able to function on a day to day basis. I have been to Patrick Harris mental hospital 3 times over this. She tells me she's not going to stop until someone makes her. I have felt scrubbing in my stomach, headaches, she has taken my breath several times trying to kill me with what is called a supercomputer. There are advocates present as well but, they will not turn it into the law because none of them want to do it by themselves. I need help from someone that knows about this sort of torture that she's putting me through. I don't know where else to turn since the advocates assigned want turn it in. Please reply as soon as possible. I am extremely scared. I can give more details when I hear from someone. Thank You,
