**Susan Odum** Is this rated intermediate due to difficult maneuvering? I have skill and experience but my friend doesn't. I'm trying to determine if she could do this. Thanks for answering my questions!

**South Carolina State Parks** It is rated intermediate due to the moving water. If you don't have knowledge about paddling and maneuvering, you could get into trouble due to downed trees, snags and hazards. Paddling experience is required to ensure the participants' safety. Hope that helps!
