**Subject:** America's only Presidential Imposter-section 1

*To America....Land that I Love.*

*April 1,2015*

*Section 1*

*Over six years ago, I received information from Europe, stating that a Barack Obama birth certificate copy appearing on the "Daily Kos" Media Website was being touted by Obama as proof he was a "natural-born" American citizen, and, therefore, eligible to seek the Presidency of the United States of America. In reality, after examination by document experts, Obama's document was roundly derided as a fraudulent copy of a "Certification of Live Birth"(hereafter a COLB), a document which, under law, could not be used to confirm presidential eligibility, since it only contained approx. 13 points of required birth information, whereas, a valid, eligible long-form "Certificate of Live Birth" contains approx 41 points of required information, including the birth certificate number (blacked out on Obama's COLB), the physician's name and the birth witnesses names, etc., all missing on Obama's ineligible, fraudulent COLB. Obama, a former Constitutional teacher, would know his COLB was unacceptable yet he deliberately cited it as legitimate, to deceive our Nation and usurp our Constitution. Truth played no role in his devious actions. He criminally used this false document to unlawfully take over our Country.*

*Please reflect on the following: in the two years after Obama introduced his fraudulent COLB he never once cited the possible existence of a valid long-form "Certificate of Live Birth", which should have been in the files of the Hawaiian Dept.of Health, nor did he mention the copy which would have gone to his parents at the time of his birth.He simply continued to use his fraudulent, illegitimate COLB posted in the Daily Kos network to justify his claim to legitimacy, showing how naive and sheep-like he considers us Americans.**The only reason none of the above-mentioned copies were sought was because he knew none of them existed.** Therefore, the creation of the Daily Kos fraudulent documents was to prevent his scheme from being uncovered. When the records he originally exposed to public view were challenged Obama then sealed all of them, including school, social security, military-related, etc. even though any or all of them should have been enough to verify his legitimacy and*

he even implied that racial prejudice motivated those questioning him. Why? because any or all of these records, if made public, would have exposed his deception. A simple producing of a valid "Certificate of Live Birth", if existing, could have resolved this issue yet Obama's secrecy is so intense that a law firm he employs refused (in writing to a Georgia court) to comply with a federal subpoena issued by that court which ordered Obama to produce the Certificate of Live Birth.

**"No Person, except a natural-born citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President.: Article II,Section 1....US Constitution"**

Approximately 233 years ago our Revolutionary War began. When it ended, the United States of America was born, liberty proclaimed and laws enacted under the new Constitution. At that time, John Jay wisely convinced George Washington to include in the Constitution Article II,Section 1. a provision limiting the Presidency and Vice-Presidency to natural-born American citizens, so that no one with a dual-nationality or other foreign allegiance (British, for example) could adversely affect the governance of our Country, a provision casually ignored by many in today's political arena who treat Article II,Section I (as well as other parts of our Constitution) as "throwaway" pieces of legislation if they conflict with one's ambition. Even today, many Republican Presidential aspirants are ignoring the requirements for seeking the Office.

**" To sin by silence when they should protest makes cowards of men"**

**Abraham Lincoln**

As more and more people challenged Barack Obama's presidential eligibility the crumbling value of his COLB became more apparent to him. Even had it been authentic it would have been declared an ineligible document for a Presidential aspirant. It could have helped one obtain a passport, social security number or even secure a license to drive a car....but not a Nation! Also, if his COLB matched a Hawaiian Health Dept. copy, as he claimed, that would simply have made both copies COLBs,and, consequently, both ineligible for The Presidency, hence Obama no longer allows any document re his birth, schooling,etc. to be viewed by anyone. Something, however, arose in 2010, which forced him to change his tactics for defending his "claimed" eligibility.
