Description /Significant Features:

Small utility building located approximately 300 feet southwest of the artificial lake at Edisto Memorial Gardens. It houses the natural gas system for the City of Edisto. It is rectangular in plan and one story tall with a front gabled V-crimp metal roof. It is composed of 5-to-1 common bond brick and has a fairly heavy wood cornice at the roofline that returns. It is accessed on the north and south elevations via slightly inset metal personnel doors. There are louvered metal windows in the gable ends. A steel frame four-over-two double-hung sash window is located on the west elevation. The foundation is slightly raised and is a continuous poured in place concrete slab.
