Hi Holly.

Cherise hasn't been able to reach Lonnie, our graphics designer. However, she did send Zach the following information that should allow him to redesign the image.

I will send the updated 'how to give' later today.

Thanks!

JoAnn Turnquist

Hi Zach,

Attached is the InDesign File for the poster. I inserted the old image for now, so you can switch it out when the new one is created. You are also welcome to move the names and copy around- we just ask that you keep the font Palantino Linotype to help be consistent with our brand.

I've not yet heard from the designer we work with for the raw files but have left a voicemail for her. In the meantime, I've attached our logo, if it helps. I'm not sure the font she used in the image. I'll continue to check my email throughout the night to see if she sends it.

For our website, we will need an image that is 750x430. If you visit our current page, you will notice that the top portion of the website page covers up the photo slightly, so we recommend making the name further up the image so it can be seen.

Please let me know if anything else comes up. I'll be checking my email as I am able.

Thanks,

Cherise

have them print the sign. They can usually turn it around fairly quickly.

Thanks,

Cherise

24" x 36" for the size. I think the last call to finalize someone is tomorrow morning.

What do you use to create stuff like this? If you can't edit away from the office and use Adobe products I could make a final change at home on my personal computer and send it back to you if necessary.
