Subject: Race Relations Articles

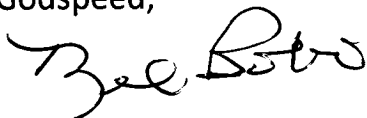

Dear Honorable Governor Haley,

During the month of February I wrote to our local newspaper The Weekly Observer an editorial regarding race relations in Johnsonville, South Carolina to raise awareness of concerns after speaking collectively with the African American Community. Unfortunately, I found the review shocking from our police department. The citizens here and beyond in the African American community feels the same way.

For your convenience, I have enclosed my article and the editorial from the Johnsonville Police Department. There has not been a response from the Johnsonville City Council or the Johnsonville School District Five as of yet. I have also enclosed a copy of my resume to let you my background.

Thank you for taking the time out of your busy schedule to review these articles and the major steps you have taken to improve race relations in the State of South Carolina.

Godspeed,

A handwritten signature in black ink, appearing to read 'Mel Bobo', written in a cursive style.

Mr. Mel Bobo
Johnsonville

Letter to the Editor

Resident laments race relations

Dear Editor,

As we celebrate African American History Month, I found it fitting to share with your readers collective information from the African American community of Johnsonville, in order to raise awareness of community concerns:

1) Unjust employment practices of employing African American professional certified teachers exists in School District Five. It's less than four, if any, in the entire school district (which includes high, middle, and elementary) coupled with treatment of African American students.

2) Racial profiling of African American people is done by the Johnsonville Police Department.

3) The City of Johnsonville City Council rejects improving infrastructure and revitalization to low moder-

ate income areas of the city and improving the hiring practices of African Americans. There is only one African American city employee.

For those who say this is not true, simple call and ask your school district, attend a Johnsonville City Council meeting and ask. As for the Johnsonville Police Department, just ask people of color in the city of Johnsonville.

Now here is a helpful hint: 1) Break down your Johnsonville City Council into single-member districts. This will allow all areas of the city to have a voice and help community needs to be met.

2) School District Five can attend College Career Fairs which would allow them to recruit African American Teachers.

3) As for the Johnsonville Police Department, if you are racially

profiling African Americans, the answer is a simple one: "Stop!"

In conclusion, with all that has happened in 2015, such as the killing of African Americans while they were in church and the continued killing of countless black men by the police nationwide, and the list goes on, we

should agree that the time has come (after all the City of Johnsonville is 100 years old) to begin practicing inclusion and the act of diversity. I also want to thank our young adult people and teenagers of all races and walks of life red, yellow, black, and white, for leading by example and living out the true meaning that it is OK to "Love thy neighbor as thyself."

At the end of the day, "It Is What It Is."

BRO. MEL BOBO

Letter to the Editor

Police Chief responds to 'profiling'

Dear Editor,

In response to Mel Bobo's recent editorial statement that "Racial Profiling of African American people is done by the Johnsonville Police Department," first let me say that I am disappointed that Mr. Bobo didn't come to me, as I take responsibility for every action taken by JPD Officers and have always advertised an open door policy to all citizens. I am also confused that he expressed his opinion and stated no facts to support whatever he is talking about. Unfortunately, this paper is not large enough for me to express my total response of the issue with all the facts so I'll be brief.

The City of Johnsonville has one of the lowest crime rates per capita of any town, city or county due to our outstanding, mature, well-trained officers, along with the unwavering support of the law abiding citizens who support us.

We have never, and could never arrest someone for "being African American." We only arrest people, usually as a last resort, for committing criminal violations. Every case made by this department is reviewed by me, as well as by Judge John Kirven (who is an attorney),

and the most fair Judge of any I have ever known. I welcome a review by anyone of our cases as everything we do is audio and video recorded so I can prove what I am saying unlike Mr. Bobo who admits to speaking for "the people of color."

I often have people of all colors call or return to personally thank me for helping them with problems, especially when we are able to negotiate a plea that

allows them to maintain a clean criminal record. That is the most rewarding aspect of my job as your public servant, and I get no satisfaction by arresting or incarcerating anyone. I will never apologize for arresting criminal violators of any color and plan to continue enforcing the law fairly as long as I am allowed to serve this community.

My advice to all people is to obey the law of the land, and you will not be profiled, tased, arrested, incarcerated or shot by the police in your community, but will be allowed to live in peace with all.

For those who choose to do otherwise, I guess you and Mr. Bobo can plan to keep crying "foul" if you expect something less of a response.

With Kind Regards,

RON DOUGLAS

Chief of Police, Johnsonville
