Subject: FW: Meeting

Can you provide me with background information about the email below?

Thank you,
Katherine

Subject: Meeting

Katherine,

I need to talk with you about a meeting with Dr. Yeatman who is the Director of the Gibbs Cancer Center and President of the Gibbs Research Institute. I would like for him to meet with Ted, Christian and others about a economic research DNA lab project that will bring jobs as well as a National Lab into South Carolina. He spoke with the Governor at one of her events and she turned his card over to her aide.

I have spoken with him and his team and the work is great and the opportunity for it here is a super opportunity. He has spoken with Bobby Hitt and also Tony Keck about the project.....So let me know if there is an opportunity to bring them down for a visit and talk.....I do believe it is something the Governor would be most interested in.....it would bring in about 100 high tech paying jobs.....we need to look at the job credit and see if they can fit. Thanks, Rita
Because I Care,

Rep. Rita Allison
