2711 Middleburg Dr. Suite 213  
Columbia, S.C.

Dear Support Groups for Health,

Would your groups give me an opportunity to grow LEGAL INDUSTRY in South Carolina that meets all environmental needs? No! No Group has ever mentored a homeless, ex-con that produces BILLIONS for his STATE with homegrown, manufacturing, small businesses and jobs using HEMP! I really did not know which CHOICE to make in applying for help from SONOCO. My letter (s) address all issues that are currently in the news.

I can SAVE SONOCO millions in a few years while reducing carbon footprint by 65%. I DO want NASCAR fuel to be grown and manufactured by OUR Citizens in South Carolina!

My stance in helping ALL Citizens should be explored and given every opportunity to take poisons and chemicals away from ALL inhabitants on EARTH.

Judy Davis article called for me to write and express my interest in you'll helping me educate, create and build healthy living in South Carolina. Will you'll give me a fair listen and discussion on merits or IDEAS?

The failings of Preacher's not taking into account that GOD could send an Ole Hippie messenger with his IDEAS does reflect badly and CORPORATION/POLITICAL Churches!

HEMP IS MCDONALD'S \$\$\$\$\$ .....LEGAL MARIJUANA IS SANDY'S HOTDOGS \$

LEGAL MARIJUANA/MEDICAL MOVING CLOSER

\$\$\$

Please read these letter(s) in attachment and see that I could change the complexion of Poisons and Chemicals on OUR EARTH with you'll's; HELP?
