David,

The increase for the trainers costs about \$21,000 with fringes. Do you agree with the adjusted salaries? Also, do you want to make the increase permanent or temporary? I will have to redo their position descriptions to make the increase permanent. I don't want to permanently assign them training duties as we may want to post training positions later. What do you think? I think I am having a problem with this because I feel like we have been threatened. I think Terry is behind some of this.
