Subject: Root Access: Episode 2 - Ashley Madison Hack

OpenDNS has launched Root Access, a podcast that looks at the most notable security stories and why they matter.

The hack of Avid Life Media's Ashley Madison dating service left lives in ruin. In this episode of Root Access, we take a look at one of the most unique and impactful breaches in history, and how it affected everyone on a personal level, plus the security details of how it occurred.

You can find episode two, "Ashley Madison," and all future episodes at rootaccesspodcast.com <<http://go.opendns.com/Y08750HOH00kk0109MO0BP4>>, or subscribe on iTunes <<http://go.opendns.com/y45OkkHO0809PMC07I00100>> and SoundCloud <<http://go.opendns.com/m100OJ0070k849HkM5D0OP0>>.
