The Honorable Nikki R. Haley
Office of the Governor
1205 Pendleton Street
Columbia, South Carolina 29201

Dear Governor Nikki R. Haley:

My name is Nytavia Dibble am a student here at South Carolina State University. Am writing this letter for the concern of my university being shut down. South Carolina State University is one of the best colleges her in South Carolina. Also the home for all the people who live in the Orangeburg area. I believe that closing the university will bring a sadness and low income for the Orangeburg community. The community here will not be same without the school joy and happiness it brings to the town of Orangeburg.

Being that I was raise and live in Orangeburg, South Carolina for twenty years of my life. I chose South Carolina State University because it brings the feelings of love and family oriented. Making my decision to become a bulldog was an easy choice. Even though I could have gone to any other college around South Carolina. I chose this school because I know I will go far and accomplish my goals. However South Carolina State has great programs and professors who are willing to make show we are ready to become great doctors, teachers, and lawyers for the world.

Overall South Carolina State is home for a lot of students here and faculty. Closing the university won't do any good to for the city of Orangeburg. I plan to complete my four years here at South Carolina State University and achieve my Bachelor's Degree in Early Childhood Education. My dream is to become a great Pre K teacher helping young kids strive for the best they can be. Also using what I learn from the best HBCU to be a great teacher for students

Thanks in advance for reading this letter. I really hope this will change someone mind, in regard of closing this wonderful University.

Sincerely,

Nytavia Dibble
