I am writing to let you know that my Daddy Ralph Donald is in Kirkland Hand E Center Has Been there 80 days and is not Classified yet He needs to have done start his dialyses the Dr. He saw in summer in October the one that the state sent him too said He need to start with in 30 days its been 2 months now I went and saw him Thursday He has lost 30 pounds and He is getting weaker by the Day. He didnt LOOK good at all Im afraid He going to die in there I have wrote you a month or 2 ago about this. I know they said He was waiting on a Bed. I thou that you could help him get his medical attation under control I really dont know what eles to do.. They are not poliet at all there and they seem

Go if they dont Really
Care About you there..

I Understand theres Rules,
Regulations they must go
By.. and He needs medical
Attention that Needs to
be took of or He will
die. His Kidneep are shutting
down one is already gone.
The other one is not to good
that's what the dialiases are
Suppose to Help. I dont under
stand why He cant Get
Classified and cant Get
to a yard. where He get
His medical Took care of and Hoped

He will live a bit while
longer while he's in there
or he's not going make it
and my father may die.
I'm asking with all
due respect that you can
get something done or at least
get him to a yard so he
can get dialysis started He
only 150 pounds now.

Thank you
